Death can be painful enough to deal with on its own, but a murder can compound the suffering for the family. For some, years and years without answers guarantees that the wounds caused by this hardship never heal. Sometimes, detective work is a waiting game—for breakthroughs in technology or that one witness to come forward who can crack the case wide open.

Many people have the illusion that if their testing company says a person is a 3rd to 5th cousin they really will be. That is not the case. The testing companies are just making the best guess they can from the data they have. They do not seem to take segment sizes into account, rather they primarily use total shared DNA measured in centimorgans (cMs) for their relatedness estimates, usually ...
