Human development is the science that seeks to understand how and why the people of all ages and circumstances change or remain the same over time. It involves studies of the human condition with its core being the capability approach. The inequality adjusted Human Development Index is used as a way of measuring actual progress in human development by the United Nations.

Human development (economics) - Wikipedia

Paradoxically, the enduring competitive advantages in a global economy lie increasingly in local things—knowledge, relationships, and motivation that distant rivals cannot match.

Clusters and the New Economics of Competition

ace in the hole A trump card; something advantageous held in reserve until needed, and especially until needed to turn apparent failure into actual success. In stud poker a hole card is the card dealt face down in the first round. Since an ace is the highest and most valuable card, the player who receives an ace as his hole card has a decided advantage.
