The New World leaf-nosed bats (Phyllostomidae) are found from southern North America to South America, specifically from Mexico to northern Argentina. They are ecologically the most varied and diverse family within the order Chiroptera. Most species are insectivorous, but the phyllostomid bats include within their number true predatory species as well as frugivores (subfamily Stenodermatinae and ...

Bat Cam Returns. The dark night rises with the triumphant return of the 24-hour Bat Cam, streaming live from inside Wayne Manor Woodland Park Zoo's Indian flying fox exhibit. See what our colony of six male fruit bats living inside the Adaptations Building gets up to during the day and especially at night!

Questions about seed-starting and potting soil brands are some of the most popular that I receive. They're tricky to answer because I've found that many of the best quality potting soils or soil-less mixes tend to be produced by smaller companies with short distance distribution. In terms of quality and ingredients, soil mixes vary widely...
