Instrumental and value rationality - Wikipedia

Communicative rationality or communicative reason (German: kommunikative Rationalität) is a theory or set of theories which describes human rationality as a necessary outcome of successful communication. In particular, it is tied to the philosophy of German philosophers Karl-Otto Apel and Jürgen Habermas, and their program of universal pragmatics, along with its related theories such as ...

Communicative rationality - Wikipedia

But I have known of Compton since my student days in the nineteen-twenties, and especially since 1925 when the famous experiment of Compton and Simone refuted the beautiful but short-lived quantum theory of Bohr, Kramers, and Slater.³ This refutation was one of the decisive events in the history of quantum theory, for from the crisis which it created there emerged the so-called `new quantum ...

I was a prostitute for 15 years. Freedom gave me an opportunity to redeem myself and gave me back my self worth and a purpose. Freedom means having purpose, having a place where I feel I belong, and loving me so I can love myself.

About | Freedom a la Cart

Weber believed that rationality was a detriment to our freedom. You might be wondering if this is counter-intuitive since an individual's pursuit toward rationality is itself an act of freedom.

Instrumental Rationality: Definition & Examples | Study.com

Classical apologists seek to show that the Christian worldview is rational or reasonable and therefore worthy of belief. The characteristic approach they take to accomplish this task is a two-step or two-stage argument.

At the heart of Fromm's thesis is the notion that freedom is a diamagnetic force — by one pole, it compels us to escape to it, which Fromm calls positive freedom; by the other, it drives us to escape from it, a manifestation of negative freedom. While modern civilization has liberated human ...

The Paradox of Freedom: The Great Humanistic Philosopher ...

From its earliest beginnings, the problem of "free will" has been intimately connected with the question of moral responsibility. Most of the ancient thinkers on the problem were trying to show that we humans have control over our decisions, that our actions "depend on us", and that they are not pre-determined by fate, by arbitrary gods, by logical necessity, or by a natural causal determinism.
